

## **Eastern Connecticut Association of REALTORS® Announces Green Home Solutions as 2026 Title Sponsor**

[Norwich Connecticut, January 20, 2026] The Eastern Connecticut Association of REALTORS® (ECAR) is pleased to announce that Green Home Solutions has signed on as ECAR's 2026 Title Sponsor.

Owned by Dustin Maurice, Green Home Solutions has become a trusted resource throughout Eastern Connecticut for mold remediation, indoor air quality improvement, odor removal, air quality testing, crawl space encapsulation, and environmentally conscious remediation services. The company serves communities across New London County and shoreline Connecticut, including Groton, Mystic, Stonington, East Lyme, Old Lyme, Guilford, Madison, Waterford, and surrounding areas.

“Dustin has been an outstanding supporter of ECAR and our members,” said Susy Hurlbert, CEO of the Eastern Connecticut Association of REALTORS®. “His business addresses issues that are increasingly important to homeowners, buyers, sellers, and real estate professionals alike. Indoor air quality, mold concerns, and healthy homes are no longer niche topics, they are essential parts of protecting property values and consumer well-being.”

Green Home Solutions specializes in identifying and treating mold and air quality concerns using plant-based and eco-conscious remediation methods designed to be effective while minimizing the use of harsh chemicals. The company works with homeowners, property managers, healthcare professionals, home inspectors, and real estate professionals to create healthier indoor environments.

As Connecticut homeowners continue to face challenges related to moisture intrusion, flooding, humidity, aging housing stock, and energy-efficient but tightly sealed homes, the need for professional mold remediation and indoor air quality services has become increasingly important. Poor indoor air quality and untreated mold can negatively impact both health and property value, making qualified remediation professionals an important partner in the real estate industry.

“I’m honored to partner with ECAR as the 2026 Title Sponsor,” said Dustin Maurice. “We value the relationships we’ve built with REALTORS® throughout Eastern Connecticut and appreciate the opportunity to continue supporting both the association and the communities its members serve.”

ECAR looks forward to continuing its partnership with Green Home Solutions throughout 2026 and thanks Dustin Maurice and his team for their continued support of the Association and the real estate profession.
